SP1360 Printer

Digital Printing System

The SP1360 is a professional-quality device that creative, opportunity seeking print production houses, design firms and specialty print shops have been looking for: a fast, affordable and easy to use printer with a media flexibility unmatched by ordinary color printers. Suitable for use both as a general office printer and print-house quality media. The SP1360 lets you extend your in-house printing and presentation capabilities from the expected to the extraordinary. HD Color renders deeper, more saturated colors, finer detail and more precise toner placement than ordinary color printers:

This affordable printing device, with its ease of use and low total cost of ownership, enables you to produce stunning documents, offer new services, be competitive, and grow your business. Users can get an instant read on the SP1360's status via the color LCD display, with its easy-to-read messaging and graphics. The alphanumeric keypad makes entering commands a snap. And the front-accessible compartment makes replacing consumables quick and easy: it takes seconds to switch out used toner cartridges or image drums.

Single Pass Color™

Single Pass Color™ technology improves color registration for all paper types and weights. While multilevel LED printheads control the amount of toner applied to each 1200-dpi dot, preserving fine image detail and maximizing color fidelity.

Media Flexibility

The ability to run up to 360 gsm media ensures the flexibility of handling a wide array of printing applications, from envelopes, double-sided brochures, labels, posters, business cards and more.

Simple Adjustments

The SP1360 features only three major settings to adjust for different media types; heat, pressure and speed. This easy-to-use interface allows for quick media changes and intuitive user operation.

Common Applications

- Envelopes
- Invitations
- Brochures
- Postcards
- Posters
- Index Cards
- Banners
- Labels

Add-on Products

Advanced upgrades for optimized printing processes

High Capacity Feeder

The newly designed feeder feeds the broadest range of envelope sizes from A2 to 13″ x 15″. The straight through print path handles envelopes and ultra-heavy card stocks (up to 360 gsm) with ease. Speed control on the feeder allows masterful handling over diverse media types.

High Capacity Conveyor

The SP1360 auto sequencing Delivery Conveyor allows for unattended operation while printing the most complex print jobs. The infinitely adjustable separator and conveyor speed control gives complete control over stacking media so it is ready for final hand off.

White or Clear Toner Upgrade

Expand your media capabilities with white or clear toner applied as spot colors over standard CMYK prints. White spot color gives you the ability to print white on top of colored media while clear spot color gives an embossed effect incomparable to a standard printer. Alternatively white toner can be applied as a base color under the CMYK toners to provide the brightest color and coverage possible on dark media.

Features

Microfine toner engineered for sharpness and crispness
True 1200 x 1200 dpi resolution
High-capacity toner: up to 38,000 pages
Prints on envelopes, magnetic media, polyester, transparent film, and heavy stock up to 360 gsm
Handles 3″ x 5″ cards to 13 x 52″ banners
Supports tabloid extra (12″ x 18″) and Super-B (13″ x 19″)
Easy front access to toner cartridges and image drums
High-resolution color LCD display panel
Low total cost of ownership (TCO)
Waterproof acrylic based toner
