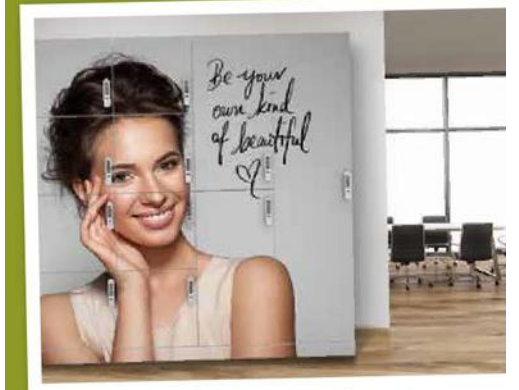
College & University Locker Solutions



The packages problem…

- Receiving managers are spending too much time handling student, faculty, and staff package delivery inquiries
- They do not have a centralized database for deliveries to the campus
- Package volume has increased 28% over the past 5 years and is expected to continue its growth
- Recipients need 24/7/365 secure access to their packages

QTrak
INTERNAL LOGISTICS SYSTEM

The packages solution…

- Users quickly place deliveries directly into the QTrak Package Lockers
- QTrak immediately notifies (text/email) the recipients that their delivery is ready for pick up
- At their convenience, the recipient simply keys in their unique, single use 4 digit access code into the QTrak Locker to retrieve their delivery
- Receiving managers have complete visibility to the chain of custody tracking information of every delivery made on campus via QTrak.net

The QTrak advantage…

- The QTrak Kiosk uses an integrated scanner that allows users to quickly store packages and notify recipients with just seven keystrokes
- New users can be on-boarded and trained directly on the Kiosk with no assistance from on-site management
- QTrak takes a real-time pictures of the user drop off and recipient pick up to ensure security
- Overflow lockers accommodate extra large items or the increase in package volume during the holidays
- QTrak automatically syncs with your database so it’s always up to date
- When you choose QTrak you have peace of mind in knowing live support is available 24/7/365 for your residents, property managers, and carriers via the QTrak Kiosk or QTrak.net

Package Locker Bank – 72”H x 19”D x 240”W each
